Raven

Model & Dancer

About Me

Although Bronx, NY born, Raven's dance career didn't blossom until she moved to the DMV area. Although she had fun dancing and entering dance competitions during her childhood, she had found a new passion for dance during the first COVID-19 quarantine of 2020, in which she transformed herself as well as her knowledge in dance and has been consistently training ever since. She travels through out the DMV and NY training in twerk, street jazz, soca, heels and hip-hop. Her Trinidadian background makes her very knowledgeable in the soca dance style and she also specializes in twerk and heels.

She works to unravel the stigma that the twerk and soca dance style is unprofessional and too sexual, and that it is just as serious a dance style as any other. She has done numerous concept and music videos, competitions, as well as performed on stage. She hopes to one day take her career to the next level.
